### ***Our Preventative Maintenance (PM) Membership***

is an agreement between you and **Hage Energy** for scheduled inspections and maintenance of your heating, ventilation, and air conditioning (HVAC) system. Our PMs consist of fall and spring scheduled sessions for a **Hage Energy** comfort specialist to go through your entire HVAC system, preparing it for the upcoming season in a proactive approach before system failure and prior to overpaying your utility company.

#### ***What we offer:***

- ▶ Professionally trained, background-checked, nationally certified technicians
- ▶ Job done right every time
- ▶ Round-the-clock service technicians on call 365 days a year
- ▶ Proven cost-effective programs
- ▶ Computerized maintenance scheduling, meaning the right service at the right time

## **Preventative Maintenance Memberships**

*The most proactive way of managing your HVAC system while saving money and energy*

### ***What is your bottom line?***

- ▶ **Savings:** PMs typically more than pay for themselves through higher efficiency, less utility overpayment, and repair discounts.
- ▶ **Peace of Mind:** Predictive maintenance means fewer system failures and a longer life for your HVAC equipment.
- ▶ **Priority Service:** Should a system failure occur during the heat of the summer or the cold of the winter, customers with PMs generally receive priority service.
- ▶ **Continuity:** We are often able to assign technicians to specific customers. That way, you get to see and know the same service technician, and he or she becomes more familiar with you and your equipment.
